Please move as quickly as possible to reinstate the ability of Uber drivers to provide safe, convenient and reliable transportation as an option in South Carolina.

I just used this service in Charleston last weekend. There was no other mode of transportation available that would met my needs as well.

Subject: Raiser / Uber

Greenville loves Raiser / Uber. The PSC of SC needs to recognize Raiser / Uber offers a safer, more convenient alternative to traditional taxi service. If competing taxi companies such as Checker Yellow Cab Company have an issue, I suspect it is only because they realize they offer an inferior type and level of service. Uber should not be punished due to the sour grapes of subpar competition.

Uber is a safe inexpensive way to travel from greenville's wonderful downtown to the suburbs where I live. Taking it away will hurt downtown or lead to people drinking and driving. Think before you pass laws please. It would be a great thing if the people making decisions for us would consider what we the people want need and pay taxes for
